COMPUTERIZED RACE RESULTS

The Class Association has developed with the Yacht Club Costa Smeralda and an Italian company, AFTER, a computer program which is a breakthrough in the sailing world. Andrea Filiacchioni, head of the company, is now very well known and has been asked to process many competitions and races such as the Admiral's Cup, Sardinia Cup and so on. The program is very colourful and gives "live" results and deltas. All those who attended the Louis Vuitton Cup in Fremantle can witness of our technological advances in this specific area.
